THE WORLD'S
FIRST SATELLITE
MESSENGER.

SPOT SATELLITE MESSENGER

Product Features:

- SPOT is the world's first satellite messenger. SPOT sends your exact GPS coordinates and selected messages over commercial satellites to tell others of your location and status.
- SPOT works around the world, independently of cellular networks.
- SPOT features four key functions that enable users to send messages to friends, family or emergency responders, based upon varying levels of need:
 - Alert 9-1-1 – Dispatch emergency responders to your exact location
 - Ask for Help – Request help from friends and family in your exact location
 - Check In – Let contacts know where you are and that you're okay
 - Track Progress – Send and save your location and allow contacts to track your progress using Google Maps™
- SPOT uses the GPS satellite system to determine a user's location and the SPOT network to transmit that location and the user's status.
- The SPOT network is a commercial satellite network with a proven 99.4% reliability rate while processing over 6 million messages a month – the equivalent of 2.3 messages per second.

Product Specifications

- Satellite coverage works around the world, independently of cellular systems, with outstanding reliability.
- 7.37 ounces
- More affordable and more functional than Personal Locator Beacons (PLB), cellular-based GPS trackers, and comparable handheld devices.
 - Unit Cost: \$149 USD
 - Service Fee: \$99 USD annual OR \$9.99 USD monthly subscription charge. Optional features including automatic tracking service (SPOTcasting) and guaranteed extraction service for countries or regions with non-responsive emergency services.

Coverage

SPOT works around the world, including virtually all of the continental United States, Canada, Mexico, Europe and Australia, portions of South America, Northern Africa and Northeastern Asia, and hundreds or thousands of miles offshore of these areas.

Battery Life

Includes 2 AA lithium batteries; under normal usage a full battery charge should meet or exceed the following

- Power on, unused: Approx. 1 year
- SPOTcasting tracking mode: Approx. 14 days
- 9-1-1 mode: Up to 7 consecutive days
- SPOTcheck OK/√: 1900 messages

Operating Conditions

SPOT works around the world virtually anywhere

- Operating Temperatures: -40°F to +185°F
- Operating Altitude: -300ft to +21,000ft
- Floats in water
- Waterproof to 1 meter for up to 30 minutes
- Humidity and Salt Fog Rated

Certifications

- OSHA certified Intrinsically Safe to Class 1, Division 1, Group A-D standards.
- ROHS and WEEE compliant.
- Certified to FCC and CE emissions, immunity and safety regulations.
- Meets FCC part 25 regulations, Canada type approval, CISPR Publication 22 (1985 1st Edition), RTTE Directive (1999/EC) and IEC 60950 safety standard.
